 - Integrated Building and Landscape Design
- Providing a Sustainable Facility
 - Energy and Water Efficiency
 - Flexibility of Program Spaces
 - Durability of Materials, Finishes and Systems
- Honoring Golden Valley's History of Mid-Century Modern Design
 - "Recollecting Forward"
 - Indoor-Outdoor Connection
 - Openness and Accessibility

The architect's composition is sensory, not just structural.
-Richard Neutra

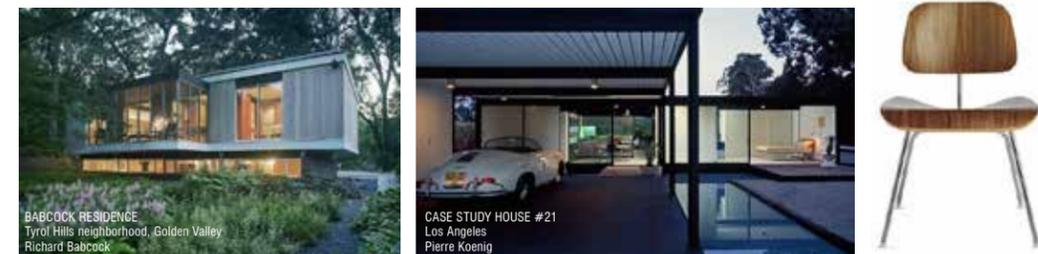

LANDSCAPE

looking out/looking in, framed views, indoor/outdoor, seasonality

SUSTAINABILITY

daylighting, shading, energy efficiency, water management

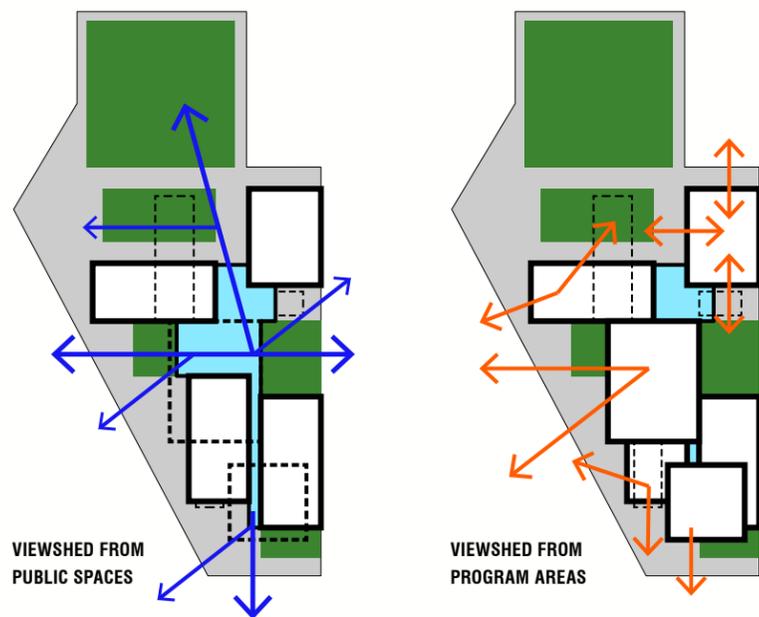

MID-CENTURY MODERNISM

open, accessible, indoor/outdoor

design concept

building form is broken down into separate program elements to:

- respect the scale of the neighborhood
- create connections to the landscape
- provide usable adjacent exterior spaces

massing study model
