

# Youth Recreation

PLAY · CREATE · EXPLORE · LEARN

## AT-HOME KITS

Perfect boredom-busters, these kits include online instructions and are a great way to add art and science to your child's time at home. Once registered, further details will be sent via email regarding kit pick-up at Brookview.

### KIDCREATE ART CAMPS TO-GO

Each kit contains four themed do-at-home art projects.

#### Clay Art

**Ages 5+**

Projects include Mosaic, Coil Bowl, Owl, and Oops a La Mode.

**Oct 19**

**\$47 res, \$50 non-res**

Register by Thu, Oct 15 for Oct 19 class | [F1418C](#)

#### How To Draw Art

**Ages 5+**

Projects include Koala, Jelly Fish, Silly Birds, and Aurora Borealis.

**Oct 19**

**\$47 res, \$50 non-res**

Register by Thu, Oct 15 for Oct 19 class [F1418D](#)

### SCIENCE EXPLORERS AT-HOME ACTIVITY KITS

All activities provide participants a kit with an outline and much of the materials needed to complete the class. A 30-day link will be provided to access a private video on YouTube.

#### STEM Sampler

**Ages 3½–6 with adult supervision**

Explore three areas of STEM in this pre-recorded virtual classroom. Participants will investigate a tropical rainforest, its layers, and the unique animals that live there. Next, they will conduct fun experiments that examine the three most common states of matter in our environment (solid, liquid, gas). Lastly, using natural curiosity, this class will enjoy engaging activities to explore force.

**Oct 3–Nov 2**

**\$31 res, \$41 non-res**

Register by Mon, Nov 30 | [F1262](#)

#### Crazy Chemistry

**Grades 2–6**

This pre-recorded virtual laboratory teaches participants to become crazy chemists. Investigate the Periodic Table and learn about its families with fun and exciting experiments, like breaking chemical bonds, getting messy with polymers, and much more. Classes are hands-on, so be ready for a mess!

**Oct 3–Nov 2**

**\$61 res, \$68 non-res**

Register by Fri, Nov 30 | [F1262](#)
