Steps To FOG Compliance

1. Notice Of FOG Compliance
   The City of Golden Valley will contact all food service establishments to determine if they have grease collection equipment.

2. Establishment Is Compliant
   Establishment notifies City that it has grease collection equipment installed.

3. City Inspection
   After City sends out an inspection request, establishment contacts City to schedule an inspection to make sure equipment is properly installed and regularly maintained. The City provides support material (maintenance logs, best management practices, etc) to help establishment properly handle FOG.

4. Equipment Maintained
   Establishment notifies City that grease collection equipment has been installed.

5. Ongoing Inspections
   City sends maintenance log reminders and conducts ongoing inspections.

   Establishment Manages FOG
   Establishment adheres to FOG best management practices and logs routine grease interceptor/trap cleaning process.

2. Establishment Is Non-Compliant
   Establishment notifies City that it doesn’t have grease collection equipment installed.

3. Correction Notice
   The City will give the establishment a correction notice with one year to install the proper equipment and develop a maintenance plan. The City provides support information about grease interceptors/traps and needed plumbing permits.

4. Correction Work Not Completed
   City will send a total of three correction notices to install proper grease collection equipment. If correction work remains uncompleted, City will fine establishment $500/month or cost to clean sanitary sewer main. If correction notice work still remains uncompleted, City will take legal action against establishment.

5. City Inspection
   Establishment calls City to schedule an inspection to make sure equipment is properly installed and regularly maintained. The City provides support material (maintenance logs, best management practices, etc) to help establishment properly handle FOG.

   Equipment Not Maintained
   If establishment is not properly maintaining equipment, City will issue a correction notice and conduct an additional inspection.

   Establishment Notifies City that grease collection equipment has been installed.
