The Project Office has indicated that Issue Resolution Teams will continue to meet regularly going forward to begin to address issues of design – especially around the stations and the station platforms. At the last IRT meeting, staff was given a rough schedule for reaching the remaining design thresholds in the Project Development and Engineering phases of work:

- March 2016 – 15% design (Municipal Consent)
- August 2016 – 30% design
- May/June 2017 – 60% design
- Fall/early winter 2017 – 90% design
- December 2017 – 100% design
